

MILESTONE UNIVERSITY

Education Services

In North America, Kudelski Security's Milestone University is the premier provider of security education, including training on the market's leading security technologies as well as valuable programs such as CISSP preparation and OSINT. The breadth of our programs helps ensure security professionals and client organizations have the tools, training and expertise to manage a wide range of security systems with greater confidence and skill.

Security Courses Taught by Engineers for Engineers

Through our Milestone University, Kudelski Security has become a proven, trusted and experienced security training provider for some of the world's most powerful technologies. Since 2000, our security education and training programs have helped thousands of companies across the United States make the best use of the technologies they invest in to protect their cyber environments.

Our goal is to ensure that everyone attending the program develops the skills they need to be effective and at the same time enhance their knowledge to advance in their careers. Our methodology is proven: highly experienced instructors, small classes and an interactive, hands-on approach that facilitates participation and deep-level learning.

The courses are conducted either on site at our training facilities in major cities throughout North America, on site at client locations, or delivered virtually – direct to students.

Our instructors are not only experts in these technologies with real-world experience but also excellent communicators, dedicated to making sure our clients meet their training goals and get the most out of the programs.

Courses on All Leading Technologies

We run over 100 courses, covering all market-leading technologies and programs used by organizations today, ensuring staff have the skills and confidence needed for optimal operation and management.

The full list of programs can be accessed here <https://www.kudelskisecurity.com/education/course-catalog>

Some of our most popular programs include:

F5 Networks Administering BIG-IP

Gain a functional understanding of the BIG-IP system as it is commonly deployed in an application delivery network.

The course, aimed at network administrators, network operators, and network engineers, introduces students to the BIG-IP system, its configuration objects, how it processes traffic, and how typical administrative and operational activities are performed. The course includes lecture, hands-on labs, interactive demonstrations, and discussions. [Learn More](#)

Training Locations

- Virtual instructor-led
- Atlanta, GA
- Boston, MA
- Chicago, IL
- Dallas, TX
- Herndon, VA
- Minneapolis, MN
- New York, NY
- Orlando, FL
- Tampa, FL
- San Francisco, CA
- Washington DC

Honors and Mentions

Kudelski Security has been the recipient of a wide range of technology partner awards, including:

- Juniper Partner of the Year, West Region, 2017
- Sophos Channel Partner of the Year, 2017
- F5 Authorized Training Partner of the Year, 2016
- Blue Coat Authorized Training Partner of the Year, 2015
- Check Point Top North America ATC Partner, 2014, 2015

Check Point Certified Security Administrator (CCSA) R80

Enhance your ability to manage security more effectively with the Check Point Certified Security Administrator program.

The key to managing security complexity is through consolidation – bringing all security protections and functions under one umbrella. With R80 management, security consolidation is fully realized. This three-day course covers everything you need to start-up, configure and manage the daily operations of your Check Point infrastructure with R80. [Learn More](#)

Check Point Certified Security Engineer (CCSE)

This advanced three-day course teaches you how to build, modify, deploy and troubleshoot Check Point Security Systems on the GAiA operating system. Through hands-on lab exercises you will be able to debug firewall processes, optimize VPN performance and upgrade Management Servers. [Learn More](#)

Authorized Training Center

Kudelski Security is an Authorized Training Center (ATC) for leading technologies:

Kudelski Security Learning Credits

Kudelski Security Learning Credits program allows you to reduce costs by purchasing courses in large quantities. The greater number of learning credits purchased, the greater the savings. Choose the training package that is right for your organization and employees.
